ALLEGATIONS:

On 19 JAN 16, at approximately 1750 hours, IPRA Investigator A registered a complaint with the Independent Police Review Authority (IPRA) on behalf of Complainant. It is alleged that on 19 MAR 15, at approximately 0200 hours, at XXXX N. Kenmore, inside University A, **the accused, "Detective A" no further information:** 1) failed to conduct an investigation into Complainant's complaint that he was raped inside a dorm room at University A by a black/male subject named "Civilian 1" who has been following him for years and 2) participated in an orgy with University A Administration. Complainant further alleged that on an unknown date and time, an unknown black/male officer: 1) pushed, pulled and dragged him inside Hospital A and 2) groped and molested him outside an unknown police station.

INVESTIGATION:

This investigation concerns allegations of improper police service and unnecessary physical contact. The investigation was conducted in the following manner:

During an audio recorded statement, Complainant stated that on 19 MAR 15, at approximately 0200 hours, at XXXX N. Kenmore, he was sleeping alone inside a dorm room at University A. A black/male subject named "Civilian 1," who has been "stalking" Complainant for several years, entered the room and raped Complainant. Complainant was under the influence of a prescribed sleeping pill called "Seroquel XR" at the time and the drug made him lethargic.

"Detective A" later arrived at the school. Instead of conducting an investigation, "Detective A" accepted an offer from University A Administration to participate in an orgy at the school. Complainant believed "Detective A had something to do with the rape" and he was arrested for Trespassing because the police were trying to "cover-up" his rape.

Complainant was transported by an unknown black/male officer from the school to an unknown police station then to Hospital B. Complainant informed the medical personnel that he was suicidal but they ignored him. From there, Complainant was transported back to an unknown police station and then to Hospital A. While at Hospital A, the unknown black/male officer pushed, pulled and dragged Complainant. Complainant was placed inside a police van and transported to another unknown police station. The same black/male officer "groped and molested" Complainant outside the police station. Complainant was then transported to Hospital C and placed in "protective custody." The hospital personnel allowed "Civilian 1" to rape Complainant every night until he was discharged.

Complainant stated he sustained “head bumps” from his contact with the unknown black/male officer. Complainant refused to seek medical treatment because he is continuously stalked by “Civilian 1” at multiple hospitals. Complainant wants “Civilian 1” arrested before he seeks medical treatment. (Att. #13, #16).

The related **Arrest and Case Reports, CB#XXXXXXXX, RD#XXXXXXXX**, document that on 19 MAR 15, at approximately 1430 hours, POs Officer A, #XXXX, and Officer B, #19646, Unit 018, arrived at University A, located at XXXX N. Kenmore, regarding a former student, Complainant. The Director of Public Safety, Civilian 2, informed the officers that Complainant was allowed to sleep in a dorm because he was homeless. Complainant became involved in multiple disturbances and was asked by security to leave. Complainant refused and the police were called. Complainant was arrested and transported to the XX District for processing where it was discovered that he had an outstanding warrant. Complainant was charged with Criminal Trespass to Real Property and Issuance of Warrant. (Att. #5).

The **Arrest Processing Report** documents that Complainant was presently taking medication for depression; that he had serious medical/mental problems; that he had threatened to kill himself; that he was transported to Hospital B following complaints of a headache; that he was cleared to re-enter the XX District lock-up; that he was transported to Hospital A where he was refused acceptance for a psychological evaluation; and that he was transported to Central Detention. (Att. #4).

The related **Supplementary Report** documents that Detective A, #XXXXX, Unit XXX, was assigned to conduct the follow-up investigation. Detective A met with Complainant at Area Central where Complainant explained that he suffers from Post Traumatic Stress Disorder and Anxiety. Complainant went into detail regarding the rape, stating his “rapist, Civilian 1,” struck him over the head with his fist, placed his finger up his nose, played with his teeth, and pulled his ears before he forced his hand down the front of Complainant’s pants, fondled his penis, pulled down his pants and penetrated his anus with his fingers. After that, “Civilian 1” cut Complainant’s pubic hairs with scissors while singing rhymes and then left his dorm room. Complainant never made any allegations of excessive force against the police to Detective A.

Detective A also interviewed University A Director of Campus Security Civilian 2 who informed him that he spoke with Complainant’s father. Complainant’s father informed Civilian 2 that Complainant suffers from mental illness. Civilian 2 also informed Detective A that Complainant had posted things about Detective A on his Facebook page.

Detective A read the posts and learned that Complainant accused Detective A of lying about and delaying the investigation into his sexual assault; that Detective A was afraid to proceed with the investigation in fear of consequences for talking to “Civilian 1” after he heard of the accusations; that he was constantly making excuses and was patronizing Complainant about the sexual assault; and that Detective A was having a relationship with “Civilian 1.”

Detective A suspended the investigation pending “Civilian 1” being located. (Att. #8, #9).

The related **printouts from Complainant’s Facebook page** corroborate the account that Civilian 2 provided to Detective A. It is noted that the Facebook postings contain an extensive amount of incoherent and disconnected ideations, as well as allegations of abuse and conspiracy directed at multiple police agencies, hospitals and government officials. (Att. #23).

The **medical records from Hospital B** document that Complainant entered the facility on 20 MAR 15, at approximately 0209 hours, in police custody, with a complaint of soreness to the right side of the head and sexual assault. Complainant stated he went to bed on a Tuesday night and when he awoke Wednesday morning, he felt a bump to the right side of his head. Complainant informed the medical personnel that he was unaware of how he sustained the bump/swelling to his head. Complainant also noticed that his anus felt “uncomfortable” and believed he was sexually assaulted because a janitor informed him that somebody had broken into his room during the night. Complainant denied any rectal bleeding, penile discharge or fever. Complainant repeatedly asked one of the nurses, “Can you give me a blow job” and accused the nurse of discriminating against him when she told him his question was inappropriate. Complainant was diagnosed with closed head injury, reported sexual assault and ringworms. (Att. #25).

The **medical records from Hospital A** document that Complainant entered the facility on 20 MAR 15, at approximately 1031 hours, in police custody, with suicidal ideations. It was noted that Complainant has a history of bipolar disorder; that he presented information in a very disorganized fashion; that he was hospitalized after he took an overdose of Seroquel a year ago; that he was hospitalized after he jumped from a window six months ago and that he had multiple other psychiatric hospitalizations. There was no mention of Complainant having been physically abused by the police. Complainant was diagnosed with suicidal intent and discharged back into police custody under suicide watch while incarcerated. (Att. #20).

Attempts to obtain Complainant’s **medical records from Hospital C Health Services of Cook County** were met with negative results because according to the medical

personnel, the signature on Complainant's medical release form did not match the signature that was on file at the facility. (#19, #21, #22).

CONCLUSION:

The R/I recommends that this investigation be terminated and that the allegations contained therein be **Unfounded** in accordance with Special Order S08-01-01, Section II., B-10, which documents that the Investigator is to "terminate the investigation when it is determined at any time that the incident is unfounded or if the member is clearly exonerated." Complainant alleged that Detective A failed to conduct an investigation into his complaint that he was raped inside a dorm room at University A by a black/male subject named "Civilian 1" who has been following him for years and that Detective A participated in an orgy with University A Administration. Complainant additionally alleged that an unknown black/male officer pushed, pulled and dragged him at Hospital A after he was transported there for having suicidal thoughts. The same unknown black/male officer groped and molested Complainant outside an unknown police station. The preponderance of the evidence indicates that Complainant suffers from mental illness. The seriousness of Complainant's mental illness is documented in his medical records from Hospital B, Hospital A and his Facebook posts. Based upon Complainant's mental state, combined with the total lack of evidence that would remotely support his claims, the allegations he made are clearly Unfounded.
