I. EXECUTIVE SUMMARY

Date of Incident:	October 13, 2018
Time of Incident:	3:30 pm
Location of Incident:	[REDACTED]
Date of COPA Notification:	October 15, 2018
Time of COPA Notification:	3:14 pm

Complainant alleged that Chicago Police Department (“CPD”) members arrested her husband without justification. The evidence shows that a store employee called for CPD assistance and told officers on the scene that the Complainant’s husband had splashed water in his face, after which the employee hit the Complainant’s husband in self-defense. The store employee signed a complaint and the CPD members arrested the Complainant’s husband. The officers are exonerated of the allegations of false arrest because the alleged victim’s signed complaint gave the officers probable cause to arrest the Complainant’s husband.

INVESTIGATION¹

COPA began its investigation by interviewing the Complainant, who is the wife of the arrestee. COPA also obtained documents from CPD as well as video and audio recordings from CPD and the Officer of Emergency Management and Communications (“OEMC”).

a. Interviews

COPA interviewed ██████████ on October 15, 2018. ██████████ stated that she was at a store with ██████████ on October 13, 2018. ██████████ stated that there was an altercation between one of the store employees and ██████████. According to ██████████, the store employee, now known as ██████████, slapped ██████████. When asked, ██████████ stated that she did not see if ██████████ threw water on ██████████; however, she conceded that ██████████ did have water with him and that she saw ██████████ with water on him.

b. Digital Evidence

COPA reviewed Body-Worn camera footage from Officers ██████████ and ██████████. The following is a summary of the pertinent points.²

Officers ██████████ and ██████████ arrived at the convenient store and spoke with ██████████ and ██████████. ██████████ complained that ██████████ was bothering patrons, and the officers stated that if he goes inside the premises, they will arrest him for trespassing. They informed ██████████ that as long as ██████████ stays on the sidewalk, he is not trespassing.

After the first interaction, the officers return to the scene. ██████████ is still complaining and reminds the officers that ██████████ threw water at him. ██████████ states that the interaction was recorded on the store’s security system but that he does not know how to work it. The officers ask ██████████ if wants to press charges and he responds in the affirmative. ██████████ signs a complaint and the officers arrest ██████████ for simple assault.

c. Documentary Evidence

COPA reviewed CPD records. An Arrest Report and an Original Case Incident Report described the events shown in the video footage accurately. In sum, the reports indicate that the offender, ██████████ was placed in custody after the victim and complainant ██████████ related that ██████████ threw water at him and approached him in a menacing manner causing

him to be in fear of receiving a battery. The reports further indicate that [REDACTED] struck [REDACTED] with a closed fist in self-defense.³

V. ANALYSIS

The officers are exonerated of the allegations. A police officer may arrest a person if he “has reasonable grounds to believe that the person is committing or has committed a crime.”⁴ Officers [REDACTED] and [REDACTED] reported to the store multiple times. [REDACTED] told the officers that [REDACTED] started the physical altercation by throwing water at him, after which he defended himself by hitting [REDACTED]. After [REDACTED] indicated that he would like to press charges and that he would sign a complaint, the officers arrested [REDACTED] for simple assault. [REDACTED] can be seen on the officer’s body worn camera signing the complaint.

The officers had reasonable grounds to believe that [REDACTED] committed a crime based on [REDACTED] statement; therefore, [REDACTED] arrest was valid. Accordingly, the officers are exonerated of the allegations.

VI. CONCLUSION

Based on the analysis set forth above, COPA makes the following findings:

Officer	Allegation	Finding
