3 Prior to Officer interview on December 12, 2017, representative, Attorney identified a discrepancy on the Sworn Affidavit that was signed and sworn to by the complainant. That affidavit was completed on March 8, 2016, and it incorrectly indicated the date of this incident was March 7, 2015. COPA conducted a thorough review of the case file and determined that the discrepancy on the Sworn Affidavit was a Scrivener’s Error made by the IPRA investigator who completed the affidavit. used the term “nigger” to address anyone. Officer [redacted] has never been accused of any racial or ethnic bias and he would immediately report anyone who used derogatory racial terms in his presence to his supervisor. Officer [redacted] said if he observed someone throwing trash on the ground he would correct them and issue a citation. Officer [redacted] said he would never denigrate anyone for this offense.

VI. ANALYSIS

COPA uses a preponderance of the evidence standard to make its factual and legal determinations. If a determination is more probably true than not, then it meets the preponderance of the evidence standard.\(^4\)\(^5\)

COPA finds that the allegation against Officer [redacted] is Not Sustained. COPA cannot determine by a preponderance whether Officer [redacted] yelled a racial slur at [redacted] on March 7, 2016, at approximately 11:15 a.m. on/near S. Kedzie Avenue. [redacted] reported the alleged misconduct to IPRA shortly after the incident and provided a description of the officer alleged to have used the racial slur, as well as a description of the vehicle occupied by the officer. Officer [redacted]’s appearance at the time corresponds with [redacted] description, and Department records put Officer [redacted] in the area at the time of the alleged incident in a dark colored, unmarked SUV. Officer [redacted] and Officer [redacted] indicate they do not recall having any contact with [redacted]

Though COPA finds no cause to question [redacted] credibility, and it is axiomatic that an on-duty officer yelling a racial slur at a citizen is unacceptable and would violate multiple Department rules and directives, there exists insufficient evidence to prove or disprove the allegation by a preponderance. [redacted] was by himself when this incident allegedly occurred, and investigative efforts produced no witnesses, video, or other independent evidence.

VII. CONCLUSION

Based on the analysis set forth above, COPA makes the following findings:

<table>
<thead>
<tr>
<th>Officer</th>
<th>Allegation</th>
<th>Finding</th>
</tr>
</thead>
<tbody>
<tr>
<td>Officer [redacted]</td>
<td>Said to [redacted] words to the effect of, “You know you better find a fucking garbage can, you fucking nigger!”</td>
<td>Not sustained</td>
</tr>
</tbody>
</table>

\(^5\) Relative to a finding of Exonerated (i.e. the conduct alleged occurred, but is found to be lawful and proper), COPA employs a standard of clear and convincing evidence. See e.g., People v. Coan, 2016 IL App (2d) 151036 (2016).
